

Welcome EV Drivers

Now you can conveniently charge your EV in our community

Do you own an electric vehicle (EV)?
Thinking of getting one?

Our community partners with ChargePoint to provide EV charging.

ChargePoint makes EV charging easy

- + Charge quickly, adding up to 25 miles of Range per Hour (RPH)
- + Start charging sessions with your ChargePoint card or the ChargePoint mobile app
- + Track charging activity, energy usage and costs for charging in our community and in public all in one place
- + 24/7 support with expert assistance if you ever have a problem
- + Charge any EV on the road. ChargePoint stations come with the universal J1772 connector that can plug into any EV on the road (Tesla's require an adapter that's supplied with your car)

Sign up in minutes

- + If you don't have a ChargePoint account, download the ChargePoint mobile app on the Apple App Store or Google Play to create one
- + Request access to the charging stations:
 - Open the mobile app
 - On the main menu, select "Account"
 - Select "Connections" and enter Connection Code XXXXX if applicable
- + If you have questions, call ChargePoint 24/7 driver support team at 888.758.4389

What does it cost to charge?

- + Set by your company
